RESUME

I am a Full-Stack Developer with hands-on experience in both front-end and back-end development for web and mobile applications. I have a strong interest in software quality, with experience in automated testing using Robot Framework as well as manual testing. I also have solid knowledge of software architecture, focusing on scalable, maintainable, and well-structured solutions from the early stages of a project. On the front end, I work with Angular, React, and Flutter. On the back end, I work primarily with JavaScript and Node.js. My experience also includes IoT integrations, Git-based version control, and Agile methodologies. Beyond software development, graphic design is one of my interests and has become an additional skill that allows me to contribute to visual design and UX/UI decisions. I enjoy being involved throughout the entire product development lifecycle, from software architecture and visual concepts to technical implementation.

Currently pursuing a Bachelor's Degree in Computer Science at the Catholic University of Brasília (UCB).

SKILLS

JavaScript, TypeScript, Java, Dart, C, C#, C++, SQL Python, Machine Learning, Swift, HTML, CSS, Flutter, React, Angular, Node.js, RobotFramework, APIs REST, AWS, Postman, Workbench, Apache, Docker, Replit, Arduino IDE, Git, GitHub, Visual Studio Code, JetBrains, Programação Orientada a Objetos (POO), Estrutura de Dados, UX/UI, Agile, SCRUM, Kanban.

EXPERIENCE

Full-Stack Developer Intern

 CAIXA Econômica Federal

August 2026

Development and maintenance of web applications, working across both front-end and back-end systems. Responsible for implementing features, integrating APIs, working with databases, creating and executing automated and manual tests, using Git for version control, and collaborating with Agile development teams.

Full-Stack Developer Intern

 INFRA S.A.

July 2026

Development and maintenance of web and mobile applications, working across front-end and back-end systems. Implemented new features and created and executed automated and manual tests to ensure application quality. Participated in code reviews, contributed to UX/UI improvements, and collaborated with teams using Agile methodologies.

Project developed:

- ✓ **INFRA-TESTER**
Desktop executable software designed to run automated tests using Robot Framework.

Full-Stack Resident Developer

 Porto Digital

August 2024 – June 2026

Developed user interfaces and back-end configurations for web and mobile applications. A letter of recommendation was issued upon completion of the residency.

Project developed:

- ✓ **InsightPro (Intech)**
Developed the interface for a system that enables users to view their BI dashboards in a secure multi-tenant environment with sharing capabilities;
- ✓ **MOV (Azzz)**
Developed the interface for a preventive monitoring system designed to help prevent cable theft and vandalism in underground infrastructure;
- ✓ **LUMA (Ideia Space)**
Educational platform that teaches space engineering interactively, allowing users to explore the architecture of a nanosatellite and simulate a space mission

Graphic Illustrator

January 2023 – June 2024

Worked as a freelance graphic illustrator, creating digital artwork using Adobe Illustrator.

Telemarketing Intern

GlobalTec Soluções em Informática LTDA

July 2019 – August 2019

Worked in customer communication and telemarketing, providing information through the company's internal systems and recording and reporting data using Microsoft Excel.

EDUCATION

Computer Science Bachelor

 Catholic University of Brasília (UCB)

August 2024 – Present

IA Residency Specialization

 University of Brasília (UnB)

August 2026 – Present

VOLUNTEER

Community Coordinator

 AWS Student Builder Group at UCB

August 2026 – Present

As Community Coordinator at the AWS Student Builder Group, I lead cloud technology engagement initiatives by organizing events, onboarding and connecting members, and moderating community channels. I also build academic partnerships to bridge theoretical knowledge with the technology industry and foster professional networking.

Student Ambassador

 Google

August 2026 – Present

As a Google Student Ambassador, I organize technology workshops, foster developer communities, and connect students with opportunities in cloud computing, AI, and the tech industry.

Assisted students in understanding HTML, CSS, JavaScript, frameworks, and front-end development best practices. Also provided guidance and support for course projects.

RECOMMENDATIONS

“As a manager, I highly recommend Miceias. He is incredibly quick to pick up tasks and very proactive about delivering things that weren’t even requested. He really impressed us here at Infra; we were swamped with work—I was onboarding him and planning to assign tasks amidst a busy schedule of meetings when he identified a specific need we had and developed a testing bot for us. It was fantastic! Wishing you great success in your future professional endeavors.” — **Lorena Viana (SUPTI Team Manager at INFRA S.A.)**

PERSONAL PROJECTS

ListBeat

Offline music catalog application inspired by Letterboxd that allows users to register, rate, organize, and manage songs and albums through lists, comments, and filters. Developed as a personal music collection management application. (**Featured Project at HackaTruck Brasília 2025.**)

QRex

Free QR code generator developed in Python with no expiration date. The tool enables users to quickly and easily generate QR codes from text, links, and other types of information.

Function Point Budget Calculator

Personal web-based tool for estimating software development costs and timelines based on the IFPUG Function Point Analysis methodology, including automatic PDF proposal generation.

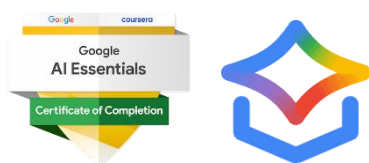

COURSES

English — Centro Interescolar de Línguas do Guará	2014 – 2017
Graphic Design and UX/UI Design Ultimate — Udemy	2022
Java — Udemy	2024
Technology and Sustainability — Catholic University of Brasília	October 2024
Contemporary Educational Technologies — Catholic University of Brasília	October 2024
Pandas with Python for Data Analysis — Catholic University of Brasília	October 2024
KANBAN Lego Games — Catholic University of Brasília	October 2024
TIC em trilhas, Collaborative Development with GitHub and Scrum — Catholic University of Brasília	November 2024
Algorithms and Object-Oriented Programming with Swift — Eldorado (HackaTruck MarketPlace)	February 2025 – March 2025
Cloud Services Practices Using Swift with an Emphasis on Cognitive Services — Eldorado (HackaTruck MarketPlace)	April 2025 – May 2025
Graphic Design Fundamentals — Udemy	June 2025
SEI! USAR 4.0 — ENAP	July 2026
Fundamentals of the Brazilian General Data Protection Law — ENAP	July 2026
Stay Ahead of the AI Curve — Google	August 2026
Scrum Fundamentals — CAIXA Econômica Federal	August 2026

ADDITIONAL INFORMATION

- Champion of the Proplayer Call of Duty Brasil Internal Championship 2022.
- Experienced Graphic Illustrator using Adobe Illustrator and Adobe Photoshop since 2020.
- Developer of Hubbies, a featured project at HackaCriativa 2025.
- Served as Scrum Master in university residency projects conducted in partnership with Porto Digital from 2024 to 2026.
- Member of the Brazilian Computer Society (SBC — Sociedade Brasileira de Computação) since 2026.
- Member of the Association for Computing Machinery (ACM) ** since 2026.

Brasília, 18 de junho de 2025

Carta de Referência Profissional

À quem possa interessar,

É com grande satisfação que recomendamos **Mickeias Charles de Oliveira Paiva**, estudante da **Universidade Católica de Brasília – UCB**, por sua destacada participação no desenvolvimento do projeto **“InsightPro – Plataforma com IA aplicada à Educação”**, executado em parceria entre a Intech, a UCB e a Azzz SmartCity Innovations.

Durante o período do projeto, **Mickeias Charles de Oliveira Paiva** demonstrou notável competência técnica, proatividade, criatividade e elevado comprometimento com os desafios e objetivos propostos. Sua contribuição no desenvolvimento da interface, na estruturação da jornada do usuário e na aplicação de metodologias ágeis foi essencial para a evolução e consolidação dos resultados alcançados pelo projeto.

Ademais, destacou-se por sua excelente capacidade de trabalho em equipe, organização, raciocínio analítico e comunicação interpessoal, atributos indispensáveis que, certamente, agregarão valor a quaisquer organizações ou projetos dos quais venha a fazer parte no futuro.

Diante disso, recomendamos **Mickeias Charles de Oliveira Paiva** sem qualquer ressalva, convictos de que sua atuação profissional será marcada por competência, ética e resultados expressivos.

Colocamo-nos à disposição para fornecer informações adicionais, caso se faça necessário.

Atenciosamente,

Renato Moraes Pereira da Luz

Diretor de Inovação

Intech Soluções em Tecnologia da Informação Ltda.
